

IRIDIUM 12.5 mm

ROPE

Ref. 2812

TEAM RESCUE, GENERAL

A super-strong semi-static rope for the heaviest work. Features a compact core and a 40 carrier sheath with twisted yarns to give the Iridium 12.5 mm a very high breaking strength and the ability to resist a very high number of falls.

White/Black - **501**: 50 m, **2001**: 200 m

Sheath is made with **twisted yarn**, which improve abrasion, resistance and durability of the rope
