

NLG Mini Coil Tool Lanyard

Product Code:
101371

Max Load:
1 KG / 2.2 LBS

OVERVIEW

The Mini Coil Lanyard is a lightweight metal-free tethering solution for small electronics and tools weighing up to 1kg. Its ultra-compact durable design helps reduce snagging hazards and the rotating connector allows for full 360° rotation to avoid tangles.

NLG ID™ Serialised and safe

Simply scan the NLG ID tag with your phone to instantly access certificates, instruction videos and log inspections. (See Specification if included).

Third-party tested and certified

Independent laboratory load testing certificates and Declarations of Conformity are available on request. Please contact team@neverletgo.com.

DESCRIPTION

NLG's Mini Coil Lanyard was specifically developed to help prevent some of the most commonly dropped electronic equipment from falling - mobile phones and two-way radios - but is suitable to use with any other tool or equipment below 1kg in weight, including small tools, instruments and cameras.

The Mini Coil Lanyard has been designed to be used with a belt, harness or wristband and is suited for use in confined areas. This small non-conductive tool lanyard rotates through 360° and has a break-out mechanism built in to reduce snagging hazards.

The Mini Coil Lanyard perfectly pairs with The Mini Adhesive D Ring, Radio Holster or Phone Holster.

FEATURES

Ultra-compact design stays neatly out of the way and reduces snagging hazards
 Non-conductive design
 Sleek 360° connector helps reduce tangles
 Detachable micro loop is ideal for electronic equipment and small devices
 Anti-puncture wipe clean sleeve makes cleaning easy

INSPECTION

In addition to routine checks before each use, all equipment should undergo regular detailed inspections, conducted and recorded by a competent person using the NLG Inspection Checklist. If any part is worn or shows signs of degradation, immediately retire from service. In the event of a drop, quarantine the equipment for a thorough inspection.
