

237

Semi static ropes with adjustable blocking mechanisms to conduct positioning work.

Positioning work consists in surrounding a profile with the positioning rope in order to achieve the optimal and comfortable point for working.

It is compulsory to work with an anti-fall system in addition to the positioning rope, in case of fall risk.

Norm	EN358 + EN 362		
Diameter (mm)	12		
Conectors opening (mm)	18		
Length (m)	2	3	5
Weight (Kg)	0,9	1,2	1,75
Lifetime (years)	10 of use + 2 of storage		

Materials

Rope	Polyester
Rope's protector	Polyester
Rope's regulator	Aluminium
Conectors	Steel
